

How To Be a LIFESAVER...

Step 1: Training And Awareness

LOCKOUT PRO™ SOFTWARE

The use of easy-to-follow procedures helps to prevent mistakes and makes lockout tasks more efficient, reducing downtime. Brady has developed revolutionary software to help you create and implement customised lockout procedures, policies and training programs for your facility. Eliminate manual procedures that are timely and inaccurate by using Brady's Lockout Pro™ Software. Create Easy To Follow Lockout Procedures In Just 60 Seconds! Post Procedures On Equipment For Easy Follow Up.

The **Lockout PRO™ Graphical Procedure Writing** version is a CD-ROM package that includes everything you need to generate graphical machine specific procedures in less than a minute! Use your computer to create professional procedures, labels and tags.

Lockout Pro™ Software can print directly to your office printer, however, for greater durability, use the Globalmark™ Industrial Labelling System for thermal-transfer printed procedures, tags, labels and signs that have superior abrasion, chemical and weather resistance.

Lockout PRO™ Enterprise version allows you to run Lockout PRO™ on a server-based network. Installation and maintenance is simple, and various licensing options are available. Lockout PRO™ Enterprise allows you to:

- View and print procedures from a web browser
- Generate reports on lockout activity and see what equipment has been locked out, by whom and when.
- Provide online training for your employees and track their results
- Allows users to save and access lockout procedures created in other programs.
- Create procedures offline when you do not have access to the company network.

Brady Lockout PRO™ Software Includes:

- Fill-In-The-Blank Procedure Template
- "Hands On" Employee Training & Quiz
- CMMS (Computerised maintenance management systems) Interface
- Ability To Import Digital Equipment Photos
- Instructional Videos For Applying Lockout Devices
- Software Compatible With Windows NT4.0, 98se, ME, 2000 or XP Operating Systems.

Free demo version of Lockout Pro™ Software is available from www.bradyid.com/lockoutpro

With the GlobalMark™ Industrial Printing System, you can print to adhesive vinyl tape, tag stock, magnetic stock and much more!

Step 2: Specify Brady Padlocks

BRADY SAFETY PLUS PADLOCKS

Designed specifically for use in lockout applications, Safety Plus Padlocks help keep workers safe and equipment free from damage. Rugged, yet compact and lightweight, this innovative lock meets OH & S lockout requirements and is well suited for use in harsh industrial environments. Each padlock comes with 2 keys and padlock labels.

The Brady Advantage:

- Corrosion and chemical resistant – suitable for use in harsh environments
- Spark-resistant, nonconductive body enhances safety in electrical applications
- Unique patented keyway protects workers from shock when inserting key

Product Class: B

Part Number	Description
850821	Red - Keyed differently
850816	Blue - Keyed differently
850819	Orange - Keyed differently
850820	Yellow - Keyed differently
850817	Black - Keyed differently
850818	Green - Keyed differently

For keyed alike or master keyed options please contact your local Brady distributor for a quote.

Colour Coded Locks Distinguish Departments or Work Teams
Choose From Six Colours

BRADY STEEL PADLOCKS

These heavy-duty laminated steel padlocks offer the optimum in security and durability. Suited for use in general security applications such as locking toolboxes, equipment cribs and more, many customers also use steel padlocks for lockout applications in environments where lockout devices may be exposed to rough handling or potential tampering by unauthorised individuals.

The individually zinc-coated steel plates deliver superior rust protection. In addition, the use of a 5-pin cylinder, paracentric keyway with drill protection, and countersunk rivets work together to enhance the lock's ability to withstand physical abuse and tampering. Available in six high-visibility safety colours and two keys. Danger labels are also available (sold separately).

Product Class: B

Part Number	Description
850827	Keyed differently - 19mm Red
850824	Keyed differently - 19mm Blue
850826	Keyed differently - 19mm Orange
850828	Keyed differently - 19mm Yellow
850823	Keyed differently - 19mm Black
850825	Keyed differently - 19mm Green
850829	Keyed differently - 50mm Black
850830	Keyed differently - 50mm Blue
850831	Keyed differently - 50mm Green
850832	Keyed differently - 50mm Orange
850833	Keyed differently - 50mm Red

LOCK LUBRICANT SPRAY

Use this lock lubricant spray to keep your padlocks in top working condition and to ensure your padlocks are maintained for longer term use. Simply spray into the barrel of locks to remove any dust and debris, and to free up moving parts.

Product Class: B
PART NUMBER: 850956

The Brady Advantage:

- This unique dry film lubricant can improve the life of your padlocks. Especially useful in harsh environments such as mine sites.

The Cost of Non-Compliance

Approximately 10% of all industrial accidents are caused by failure to properly control hazardous energy. According to U.S. OSHA, this leads to 250,000 incidents, resulting in 50,000 injuries and over 100 fatalities every year.

Studies have shown that energy control programs can reduce injury rates by 25 to 50 percent!

- OSHA fines can run from several hundred to several hundred thousand dollars
- On average, non-fatal industrial accidents cost employers

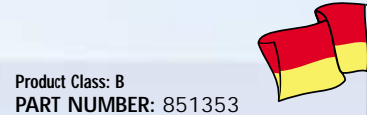

over \$30,000 in direct and indirect medical expenses. In the event of a fatality, costs can jump to over \$1 million!

- Penalties from civil lawsuits can also easily run into the millions of dollars!
- Not just people get hurt – unexpected startup can also damage equipment and machinery, requiring expensive repairs and prolonged downtime that reduces productivity
- Many insurance companies offer reduced premiums to employers who demonstrate that they have an effective Lockout Tagout program – A welcome saving in light of skyrocketing insurance costs!

Step 3: Combine With Brady Devices

3-IN-1 PLUG LOCKOUT DEVICE

The Large Plug Lockout is a versatile device that can be used on varying plug sizes and cord diameters. Each plug lockout can accommodate plugs up to 76mm in diameter, 138mm in length and cords up to 31mm in diameter.

Product Class: B
PART NUMBER: 851353

The Brady Advantage:

- Accommodates Varying Plug Sizes
- Use On High And Low Voltage Plugs
- High Visibility Yellow Alerts Workers

ALL PURPOSE CABLE LOCKOUT

The advantage of using cable lockouts is that they can be used in a wide variety of ways and can secure unusual energy isolating devices that are difficult to lock out using conventional means. Its ergonomic design makes it a breeze to tighten. Using the cable-hold device in one hand, cinch the cable tight with the other!

The lightweight body is made of impact-modified glass filled nylon. Built-in loops keeps cable neatly coiled when stored and also keeps extra cable from dangling loose and posing a hazard when in use. Available with two types of cables that are interchangeable and can be purchased separately.

Product Class: B

Part Number	Description
851178	Cable Lockout with 3mm x 2.4m Non-conductive Cable
851179	Cable Lockout with 4.7mm x Sheathed Metal Cable
851180	Cable Only - Non-conductive Cable 3mm x 2.4m
851183	Cable Only - Sheathed Metal Cable 4.7mm x 2.4m

UNIVERSAL VALVE LOCKOUT DEVICE

The Universal Valve Lockout Device has an open-ended clamp that fits over closed rings and wide handles. The device can be used to lock large levers, T-handles and other hard to secure mechanical devices. Made of industrial grade steel and nylon for extra impact and chemical resistance, this device comes with a cable to accommodate even more of those unique lockout applications. There is no need for multiple types and sizes of lockout devices! Now one device fits them all! Available in small and large sizes. Choose between a 2.4m Non-conductive Nylon Cable or a 2.4m Sheathed Steel Cable. Perform multiple valve lockouts with just one device!

Product Class: B

Part Number	Description
851414	Small UWLO w/ 2.4m Sheathed Steel Cable
851415	Small UWLO w/ 2.4m Non-conductive Cable
851416	Large UWLO w/ 2.4m Sheathed Steel Cable
851417	Large UWLO w/ 2.4m Non-conductive Cable

ADJUSTABLE GATE VALVE LOCKOUT

Eliminate the need to buy three or more lockouts – the Adjustable Gate Valve Lockout adjusts to fit multiple size gates! Designed to completely enclose handle and prevent tampering. The durable polypropylene construction resists cracking and abrasion, and can withstand temperatures from -45°C to 182°C. Available in Red or Yellow. Labels sold separately.

Product Class: B

Part Number	Description
850835	Yellow
850834	Red
851649	Label

MINI CABLE LOCKOUT

This revolutionary new Cable Lockout Device is perfect for use on disconnect switches, small gates and more! The cable is retractable and is stored internally- it works just like a tape measure! The body is constructed of impact-modified glass filled nylon which yields superior resistance to chemicals, corrosion and temperature extremes. Labels sold separately.

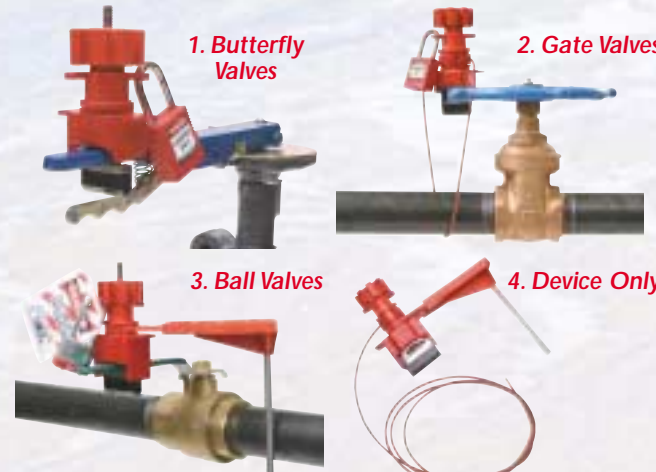

Body Dimensions:
100mm(w) x 31mm(d)
Cable Dimensions:
1.5mm dia. x 2.4 metres(l)

Product Class: B

Part Number	Description
851177	Mini Cable Lockout Device
851650	Label

Use the Universal Lockout Device to lockout:

Step 4: Install A Brady Lockout Kit

LOCKOUT STATIONS

Lockout Stations are an easy and accessible way to store your lockout devices. Three types of stations are offered to suit most Valve, Electrical and Mechanical lockout requirements.

Valve Station Contains:	
✓	1 All purpose cable lockout
✓	1 Large universal lockout w/ blocking arm
✓	1 110V Plug lockout
✓	1 3-in-1 Plug lockout
✓	1 25mm Ball valve lockout
✓	1 63mm Gate valve lockout
✓	1 165mm Adjustable gate valve lockout
✓	2 Labelled lockout hasps
✓	12 Safety Plus Lockout Padlock
✓	25 Lockout tags

Electrical Station Contains:	
✓	1 Mini Cable lockout device
✓	2 120V Snap-on breaker lockouts
✓	2 120/277V Clamp-on breaker lockout
✓	2 480/600V Clamp-on breaker lockout
✓	2 Universal multi-pole breaker lockout
✓	1 Oversized breaker lockout
✓	2 Cleats for 120/277V Clamp-on lockout
✓	2 Cleats for 480/600V Clamp-on lockout
✓	1 Wall switch lockout
✓	1 110V Plug lockout
✓	1 3-in-1 Plug lockout
✓	1 25mm Ball valve lockout
✓	1 63mm Gate valve lockout
✓	1 165mm Adjustable gate valve lockout
✓	2 Labelled lockout hasps
✓	18 Safety Plus Lockout Padlocks
✓	12 Lockout tags

Combination Station Contains:	
✓	1 All purpose cable lockout
✓	1 Large universal lockout w/ blocking arm
✓	2 120V Snap-on breaker lockouts
✓	2 120/277V Clamp-on breaker lockout
✓	2 480/600V Clamp-on breaker lockout
✓	2 Universal multi-pole breaker lockout
✓	2 Cleats for 120/277V Clamp-on lockout
✓	2 Cleats for 480/600V Clamp-on lockout
✓	1 Oversized breaker lockout
✓	1 Wall switch lockout
✓	1 110V Plug lockout
✓	1 3-in-1 Plug lockout
✓	1 25mm Ball valve lockout
✓	1 63mm Gate valve lockout
✓	1 165mm Adjustable gate valve lockout
✓	2 Labelled lockout hasps
✓	18 Safety Plus Lockout Padlocks
✓	25 Lockout tags

Product Class: B

Part Number	Description	Size (mm)
851389	Electrical Lockout Station	457 x 300 x 100
851397	Valve Lockout Station	660 x 480 x 127
851398	Valve Lockout Station w/ enclosed cover	660 x 480 x 127
851402	Combination Lockout Station	760 x 635 x 133
851407	Combination Lockout Station w/ enclosed cover	760 x 635 x 133

*Valve and Combination Lockout Stations are available with or without an enclosed cover.

PERSONAL PADLOCK POUCH

This handy kit is ideal for individuals requiring a basic lockout kit for temporary maintenance and repairs. The kit consists of two Safety Plus lockout padlocks, two heavy-duty, reusable tags and two lockout hasps. Packaged in a brightly coloured pouch that reads "Lockout / Tagout", this kit is easily located in any work-van. Each pouch has two small D-shackles and belt loops to attach to tool belts for portability.

Product Class: B

Part Number	Description
851191	Combination Lockout Kit
851356	Satchel Only

COMBINATION LOCKOUT SATCHEL

When attending to maintenance and repair work, ensure you have the right device available to lockout energy control points by carrying this convenient satchel. This quality satchel contains quality Brady lockout devices to suit the most common mechanical, valve and electrical control points found in manufacturing plants and worksites everywhere. Bright red satchel that reads "Lockout/Tagout" is easily identified and is available with or without lockout padlocks and tags.

Each Kit Contains:	
✓	1 Large Universal Lockout with blocking arm
✓	1 All Purpose Cable Lockout
✓	1 6-25mm Ball Valve Lockout
✓	1 25-64mm Gate Valve Lockout
✓	1 64-127mm Gate Valve Lockout
✓	1 127-165mm Gate Valve Lockout
✓	1 240V Snap-On Breaker Lockout
✓	1 240 Volt Clamp-on Breaker Lockout
✓	1 480/600 Volt Clamp On Breaker Lockout
✓	1 Universal Multi-pole Breaker Lockout
✓	1 Cleat for 240 Volt Clamp-on Lockout
✓	1 Cleat for 480/600 Volt Clamp-on Lockout
✓	1 240 Volt Plug Lockout
✓	1 Wall Switch Lockout
✓	1 Lockout Satchel
✓	2 Safety Plus Padlocks
✓	2 Lockout Tags

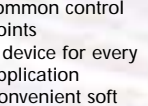

Product Class: B

Part Number	Description
851192	Combination Lockout Kit
851193	Combination Lockout Kit w/ Padlocks & Tags
851357	Pouch Only

The Brady Advantage:

- Lockout the most common control points
- A device for every application
- Convenient soft carry satchel

Lockout Tagout Regulations & Standards

Regulations in Australia impose a duty of care on employers. As an employer it is your responsibility to ensure that employees adhere to your company's onsite safety policies and procedures. We recommend you review the following documents as guidance for your lockout tagout policies:

- Australian Standard AS 4024.1996, Safeguarding of machinery Part 1, Section 14, Isolation and dissipation"
- Worksafe WA – Guidelines for Isolation

- National Occupational Health and Safety Committee – Duty of care

We also recommend that you investigate any local or state regulations imposed by individual states and territories. A listing of these bodies is provided in the full version of the Brady catalogue.
