

## The **next generation** of sorbents

SPC introduces an **eco-friendly** family of **high-performance** sorbent products

# The **benefits** of using **Re-form** sorbents

- **Green to Produce. Green in Use.**

The production process used for Re-Form takes less away from our environment. Re-Form is made from a minimum of 70% recycled newsprint and other cellulose...unlike oil-based polypropylene sorbents. And, the better absorbency of Re-Form means you'll have less sorbent material to dispose of.

- **Better Absorbency**

The unique construction of Re-Form offers superior absorbency. In fact, Re-Form sorbents have been tested to be up to 25-50% more absorbent than oil-based polypropylene sorbents, so you'll use less product to get the job done. Less waste makes this sorbent both green and lean!

- **Cost Savings**

Re-Form will also put some green in your pocket. Re-Form sorbents are less expensive than our oil-based polypropylene sorbents. We also guarantee stable pricing on Re-Form sorbents because the price of Re-Form sorbents is not impacted by volatile oil prices.

- **Class A Fire Retardant**

You won't need to sacrifice fire safety when using Re-Form sorbents. Both Re-Form and Re-Form Plus sorbent materials meet NFPA Class A Fire retardancy.

**Re-Form**<sup>TM</sup>  
Eco-Friendly Sorbents

# Introducing **Re-form** and **Re-form Plus**

## **Re-Form™ Sorbent Material**

Re-Form material's unique composition gives users an environmentally friendly sorbent that absorbs up to 50% more than traditional meltblown polypropylene sorbents.

- For basic drips & spills
- Netted construction – for extra durability
- Indoor use or dry-weather outdoor use
- General purpose sorbent (not for use w/ highly aggressive acids & caustics)
- Available in Pads, Rolls and Socs

## **Re-Form™ Plus Sorbent Material**

Re-Form Plus material has the same absorbency performance as the basic Re-Form material but adds a spunbond coverstock making it ideal for handling foot traffic and wiping applications.

- For drips, spills and wiping applications
- Spunbond coverstock for additional durability
- Perforated – use only what you need
- Indoor use or dry-weather outdoor use
- General purpose sorbent (not for use w/ highly aggressive acids & caustics)
- Available in Pads and Rolls

### **Re-form Guarantee**

**Guaranteed Price Stability** on Re-Form products through to November 1, 2009

**Try Re-Form Risk Free** – money back guarantee on your initial case
