PRESS RELEASE
New product

BRADY SAFETY PADLOCKS ARE AVAILABLE IN TWO NEW COLOURS-PURPLE AND WHITE

Brady Australia has extended the Brady Safety Plus™ Padlocks range with two new colours. The Padlocks are now available in purple and white in addition to the red, blue, green, yellow, black and orange, increasing the colour options to eight. Brady endeavor to cater for all industry needs and has added the two new colours to the range to help companies and authorities with their lockout product requirements.

Brady Safety Plus™ Padlocks are designed specifically for use in lockout applications. Compact and lightweight, these padlocks are corrosion, chemical, spark-resistant and feature a non-conductive body. The unique patented isolated keyway protects workers from shock when inserting the key. Made from rugged reinforced nylon with hardened steel shackle, the padlocks have ribbed sides that promote secure gripping.

Brady Padlocks are designed to help you meet OH & S lockout requirements and are essential components in any facility's lockout/tagout program ensuring worker's safety. Each padlock comes with two keys and danger labels. Custom padlocks and keying are also available.

Brady offers one-stop-shopping when it comes to LOTO products. Other new products in the LOTO range include the Universal Valve Lockout device, Cable Lockout device, Miniature Cable Lockout and a Wall-Mounted Plastic Lock Box.

For more information about the new Brady Padlocks or the wide range of Lockout Tagout products please call Brady's Customer Service Department on 1800 620 816 or visit our website www.bradyaust.com.au.

Brady Safety Plus™ Padlocks are now also available in purple and white increasing the colour options to eight.
